Civil Support Team (CST): Assesses hazards, advises civil authorities, and facilitates military support during emergencies and incidents of mass destruction

Chemical, Biological, Radiological and Nuclear Enhanced Response Force Package (CERFP): Responds to chemical, biological, radiological, nuclear, and high-yield explosives incidents by providing security, decontamination, medical support, and casualty search and

VIGILANT GUARD

What is the Vigilant Guard exercise?

Vigilant Guard is an eight-day, Nevada National Guard-hosted exercise to test the National Guard as the first military responder in support of the governor and the state emergency management agency. Vigilant Guard reinforces that all incidents are local. The exercise will test the capabilities of the Nevada National Guard, the State of Nevada Division of Emergency Management, local and county first responders, and the Emergency Management Assistance Compact (EMAC) – the process by which governors reach out to other states for assistance.

Specific National Guard homeland defense capabilities include the National Guard reaction forces, weapons of mass destruction civil support teams and chemical, biological, radiological and nuclear enhanced response package teams.

What is the exercise scenario?

The timely scenario is a 7.1 magnitude earthquake on the Mount Rose Fault System resulting in widespread property damage, economic disruptions, displaced citizens and guests in Nevada, and significant loss of life.

Who will participate?

More than 1,700 National Guardsmen from six western states and the Territory of Guam will participate – all under the command and control of the Governor of Nevada through EMAC. These Guard forces will operate and train alongside other partici-

pants including Nevada county and state agencies, the Department of Homeland Security, and region IX Federal Emergency Management Agency (FEMA).
